

I SUONI DEGLI DEI

Sounds of the Gods - Concerts on the Path of the Gods 2019

MAY-SEPTEMBER-OCTOBER 2019 www.isuonidegliidei.com

Concerts are open-air performed, on the famous and scenic walk Sentiero degli Dei - the Path of the Gods above 500m/600m from Praiano.

The theme of the project is to unite the passion of music and love of the environment in a series of concerts of both classical and contemporary music, in such unforgettable places as the amazing peaks of Monti Lattari, the wonderful surroundings of the church of Santa Maria a Castro, and ancient stone ruins.

Each performance will begin with an excursion (yourself or with a trekking guide) on foot from Praiano, Agerola and Positano to reach the Sentiero degli Dei, a natural theatre suspended high above the Punta Campanella and the Isle of Capri. The performances will be performed in the morning hours: this will be a new and different way of hiking, in which one will be in intimate harmony with nature and music. **Concerts are free of admission.**
